Services Context (Safaricom)

Safaricom provides a wide range of telecommunications and digital financial services across Kenya, serving individuals, SMEs, and large enterprises.

Its core service categories include:

📱 **Mobile Network Services**

- Voice calls (local and international)
- SMS and data services via 3G, 4G, and expanding 5G infrastructure
- High network coverage across urban and rural Kenya

💰 **Mobile Financial Services**

- M-Pesa: a globally recognized mobile money platform enabling:
  - Peer-to-peer transfers
  - Bill payments
  - Merchant payments (Lipa na M-Pesa)
  - Savings and credit services (via partnerships with banks)

🌐 **Enterprise & Digital Solutions**

- Cloud services and data hosting
- Internet of Things (IoT) solutions
- Cybersecurity and managed IT services
- Business communication tools (bulk SMS, APIs)

🏠 **Home & Consumer Internet**

- Fiber-to-the-home (FTTH) broadband
- Fixed wireless internet solutions
- Bundled packages combining voice, data, and entertainment

🎓 **Digital Ecosystem Services**

- Education platforms
- Health tech partnerships
- Content streaming and entertainment services

Safaricom positions itself not just as a telecom provider but as a **technology company**, with a strong focus on building an integrated digital ecosystem anchored by mobile connectivity and financial services.
