Services Context (KPLC)

KPLC's primary mandate is the distribution and retail of electricity to customers across Kenya, serving residential, commercial, and industrial users.

⚡ **Electricity Distribution**

- Power delivery from generation companies (e.g., KenGen) to end-users
- Operation and maintenance of transmission and distribution networks
- Grid expansion to increase national electrification rates

🏢 **Customer Connection Services**

- New electricity connections for homes and businesses
- Meter installation (prepaid and postpaid systems)
- Load upgrades and service modifications

💳 **Billing & Payment Systems**

- Prepaid electricity tokens (widely used in Kenya)
- Postpaid billing for large consumers
- Integration with mobile money platforms for payments (e.g., M-Pesa)

🔧 **Maintenance & Fault Management**

- Outage detection and restoration
- Scheduled maintenance of grid infrastructure
- Emergency response to faults and system failures

🌱 **Energy Efficiency & Advisory**

- Guidance on energy consumption optimization
- Demand-side management programs
- Support for industrial energy audits

📊 **Smart Grid & Digital Services**

- Smart metering initiatives
- Automated outage management systems
- Digital customer service platforms (apps, USSD, online portals)

KPLC plays a central role in Kenya’s economic development by enabling reliable electricity access, though it faces ongoing challenges such as infrastructure strain, power losses, and demand fluctuations.
